Value proposition

**Telecraft provides
end-to-end enterprise solutions
for the best experience**

Design

Custom-made, cost-effective solutions powered by unified communications, collaboration and networking services. Seamlessly integrating people and work according to business processes, headcount and scale.

Supply

With our long-standing partnership with some of the most renowned names in the Unified Communications, Collaboration and Networking business, we have garnered a comprehensive portfolio of best-in-class products and services capable of catering to all requirements.

Install

Our seasoned field experts, with decades of experience, are more than qualified to configure and install the designed solutions. We also provide testing and training services to ensure that you receive the best experience possible

Maintain

Agility and responsiveness define our maintenance standards. Our invaluable associations, complete life-cycle management, and in-house expertise ensure that your IT and AV infrastructure runs smoothly with minimum downtime.

Our Offerings

ICT & AV Design Consultancy

Telecraft has a specialist team of consultants, skilled and qualified in various technologies and methodologies. Experienced in the construction process, we are able to deliver the best combination of technologies alongside building construction.

NETWORK ASSESSMENT AND IMPLEMENTATION

- Consultation and Assessment
- Design and Architecture
- Implementation and Deployment

SOLUTION DESIGN

- Architecture and Technology selection
- Dimensioning and Capacity Planning
- Cost Analysis and Optimisation
- Migration plan

SOLUTION ENGINEERING

- Vendor selection
- Detailed solution specification
- Trial definition
- Deployment plan

PROGRAM AND PROJECT MANAGEMENT

- Steer and Take Initiative
- Coordinate and Control
- Report

Our Offerings

IT Integration & Networking

Telecraft undertakes comprehensive analysis of an enterprise's processes and information. It involves a procedure to encompass all IT facets and course of action into a single practice. Enterprise Architecture solutions help to analyze, plan and execute changes with better approach.

Align various platforms and technologies

Create the roadmap for developing IT architectural methodologies and achieving business goals

Attain enhanced compliance and more predictable project results

OUR SERVICES INCLUDE

- Architecture Design
- Strategy Consulting
- Solution Optimization
- Implementation Planning

INFRASTRUCTURE SERVICES

- Database Management
- Network Planning and Designing
- Application Analysis and Maintenance
- Installation Support
- Remote IT Support

SYSTEM INTEGRATION

- Technology Consulting
- Solution Architecture and Management
- Implementation and Training Support
- Service Level Management

TECHNICAL SUPPORT

- Product Upgrading and Enhancements

Our Offerings

Cisco Video

Video-based interaction has penetrated deeper into an organization's day-to-day processes. Cisco networked video is successfully providing an engaging experience to thousands of business users and millions of consumers. It is transforming the way communication takes place and enables them to do more and better.

VIDEO END POINTS

Cisco offers a complete portfolio under a single OEM addressing your VC needs irrespective of size and type.

- Individual use
- Collaboration spaces
- Huddle spaces
- Large meeting rooms
- Auditoriums
- Townhalls
- Training Rooms

CISCO WEBEX

With industry leading solutions for hybrid work and customer experience, Webex fuels businesses of all sizes.

- Meet Anyone, Anywhere from any Device (Tablet / Laptop / Endpoint)
- One-click meeting access with up to 1000 participants as video or audio call
- All-in-one integrated voice, video and content sharing, recording (1GB), annotating, white board and chat

MEETING PLATFORMS SUPPORTED

Cisco is also unique in that it can offer meeting platform agnostic solutions (Cisco, Zoom, Gmeet, MS Teams etc.)

- Cisco OS
- Native MTR
- CVI (Cloud Video Interop for MS Teams)
- Zoom CRC
- All devices are USB-C BYOD Ready

Our Offerings

Unified Communications

Bring people together anytime, anywhere, and on any device with Cisco's integrated collaboration infrastructure for voice and video calling, messaging, and mobility. Cisco Unified Communications Manager (Unified CM) provides reliable, secure, scalable, and manageable call control and session management.

CUCM

Cisco Unified Communications Manager (Unified CM) provides reliable, secure, scalable, and manageable call control and session management.

WEBEX CALLING

Webex Calling is a proven cloud calling solution that delivers enterprise-grade calling, enabling you to replace your on-premises PBX network with a globally trusted cloud calling solution. Webex Calling easily extends to a complete collaboration experience that includes market-leading calling, meetings, messaging, contact center, and integrated devices for all situations.

CISCO IP DEVICES

Webex Calling supports a wide range of

- Cisco IP Phones
- Cisco Headsets
- 3rd party devices.

Whether in the main office or branch, public area, conference room, or your home office, all of your phones are connected together under one management.

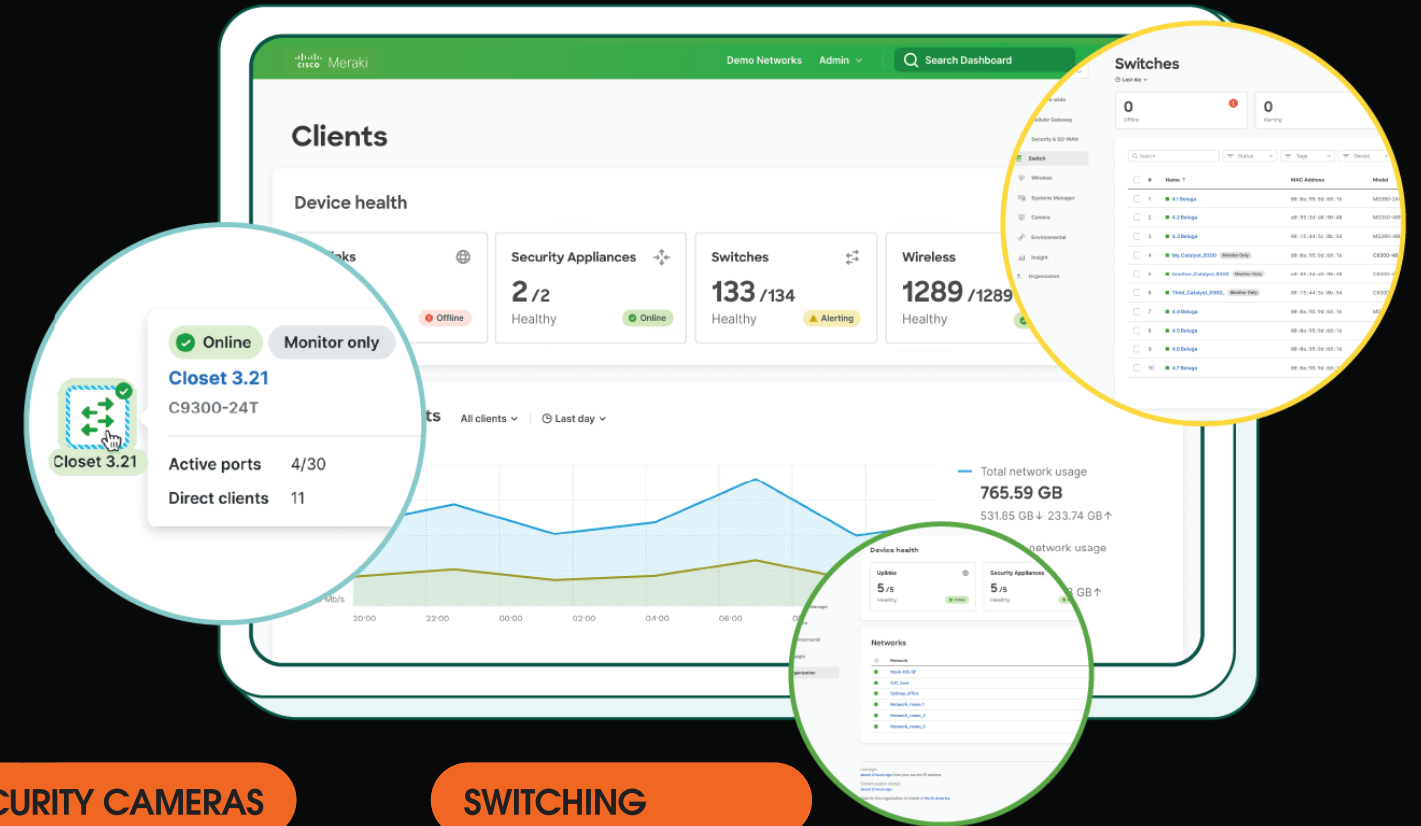

OPEN AND INTEROPERABLE

Cisco Unified (CM) supports industry standards, a wide range of gateways, and a broad ecosystem of third-party integrations and solutions plus partners. This results in a rich collaboration with anyone, anywhere and embedded collaboration in your line-of-business applications.

Our Offerings

Cisco Meraki Cloud Managed Networks

Centrally managed from an intuitive interface, the Cisco Meraki portfolio is feature-rich, easy-to-use dashboard that enables customers to reduce operating costs while achieving their organizational objectives.

WIRELESS LAN

Industry-leading indoor and outdoor wireless access with built-in location analytics.

INSIGHT

End-to-end visibility into end-user's experience on the network.

SECURITY/SD-WAN

Unified Threat Management (UTM) devices with Software Defined Area Networking (SD-WAN) capability included at no extra cost.

SECURITY CAMERAS

Indoor and outdoor security cameras eliminating traditional external storage such as NVRs.

SWITCHING

Branch and campus access and aggregation switches with remote packet capture and cable testing.

MOBILITY MANAGEMENT

Complete Enterprise Mobility Management solution including device, application, content and identity management.

Cellular Gateways

Cellular gateways transpose a cellular signal into wired WAN Ethernet connectivity, enabling high-speed, always-on cellular network connectivity.

IOT Sensors

Manage indoor air quality, monitor temperature, humidity and restricted spaces.

05

Our Offerings

Audio Video Integration

Audio-Video Integration solutions can be defined as an integration of a wide range of equipment including audio-visual, lighting, ICT infrastructure, which are tailor-made for our clients to meet their specific requirements in communicating effectively with others as well as enhancing the quality of interactions.

DISPLAY SOLUTIONS

- 4K LED displays
- Capacitive touch displays
- Active LEDs
- Digital Signages
- Find My Way

CONTROL SYSTEMS

- Room Booking System
- Lighting Automation
- Video over IP
- Digital Signages
- Videowall controllers

AUDIO SOLUTIONS

- DSPs
- Boundary Mics
- Voicelift Ceiling Mics
- Column speakers
- Ceiling speakers

APPLICATIONS

- Meeting Rooms
- Training Rooms
- Townhalls
- Command Centres
- Auditoriums
